

Oakgrove Reading Logbook

Welcome to the Oakgrove Reading Logbook.

There are three races for you to try to complete this summer: 100m race, 200m race and the Marathon. To complete the sprint races all you have to do is fill in a part of the race when you finish reading a book. Then record the title, author of the book, when you finished reading it and whether you enjoyed reading it on the back page.

For the marathon you need to read a poem, a newspaper article, a comic or cartoon book and a book. Again, you also need to fill out the table on the back page.

Please bring these back into school on your first day at Oakgrove. For each completed race you will receive a merit from your tutor. Good luck!

100m

Your challenge is to make it round the track by completing all four parts of the race. You can complete each part of the race by reading a book and filling out the table on the back of this page. When you have finished each part get this signed by someone at home.

Good luck and get racing!

| Title | Author | Date Read | Did you enjoy reading it? |
|-------|--------|--------------|---------------------------|
